Objective

A highly driven individual seeking a full-time opportunity to gain experience and further enhance my skills as an aspiring web developer. I aim to be part of a company that provides the opportunity to grow professionally while utilizing my skills and experience.

Experience

• Freelance Designer/Developer

2024 – Present

- Designs/Develops websites tailored to client needs

• UI/UX Designer

February 2024 – Present

Prostrive – Netherlands (Remote)

-Develops intuitive and visually appealing UI designs for both company websites and client systems, ensuring seamless user experiences.

• Frontend Developer Intern

July 2023- November 2023

eScience Corporation – Alabang, Muntinlupa (Hybrid)

-Designed and Developed Detailing Aids for the company's clients
- Participated in Sprints on every project

• UI/UX Designer/System Analyst Intern

June 2023 – July 2023

DOST – Bicutan, Taguig (Remote)

-Experience in creating and improving UI designs of DOST's websites while being trained by the professionals for the DOST Scholars.

• UI/UX Designer/Developer

February 2023

Participant of Google Developer's Hack-Attack Ideathon, a week-long ideathon of student developers where we develop a system that will solve 2023 local issues.

Education

2020 – 2024 - PAMANTASAN NG LUNGSOD NG MAYNILA

Bachelor of Science in Computer Science

Consistent Dean's Lister (2020-Present)
